

Dear members, dear friends!

The last two years have not been easy, worldwide, and of course also for our organisation - FISAIC.

Due to the pandemic, our events, which were prepared with a lot of commitment by the individual organisers, couldn't unfortunately be held.

Despite this, the office has used this time to complete numerous work-intensive agendas, such as revising the Statutes and Guidelines - these were sent to you before the virtual assembly for your review and feedback.

We also succeeded in getting in touch with our former member Israel and persuading them to re-join our organisation. We are well on our way and will inform you as soon as possible about further talks.

We have also succeeded in launching a virtual art exhibition for the first time in autumn 2021, here a special thanks to our friends from Germany and Greece for the remarkable work and design of this grandiose exhibition. A total of 108 participants from 6 national Unions took part and the total number of works of art was 196. It was a stunning success.

Despite this enormous turnout, there is no substitute for personal contact.

We are very pleased that several events have been and will be held. this year

So far, the meeting of the

- ❖ of model railway enthusiasts from 29. 4.-1. 5. in Villanova (E) with the national union of the Czech Republic, France, Germany, and Spain
- ❖ the Congress of Esperantists from 6. - 9. 5. in Beroun (CZ) with 13 countries and 110 participants
- ❖ the Bridge Tournament from 20. – 24.6. in Bad Tölz (D) with 7 participating countries
- ❖ were held.

It is worth mentioning that the Romanian delegation travelled more than 28 hours by train to participate in this tournament.

The other events of this year are

- ❖ the art exhibition in Bad Salzuflen (D) from 1 -4. 9.
- ❖ the film and video competition also in Bad Salzuflen (D) from 29. 9.-3. 10.

and of course, our 70th anniversary celebrations at the General Assembly in Bischheim (F) from 4-7 November this year's.

If you have not yet registered, please do so quickly. We look forward to meeting you!

Long live FISAIC

On behalf of the Bureau

With warm greetings

Kurt Neuwirth

Managing President of FISAIC
