

MONTHLY NOTE FROM THE PRESIDENT

PHILIPPE ROUCHE

president.fisaic@orange.fr

The kickoff for 2019 has been given. January has just ended. After the General Meeting in Athens last October we sent you the results of the study done by the working group "Communication". We asked you to respond and share your comments and observations. A number of you have done it, but many have not answered yet.

This is unfortunate and a great pity because the future of FISAIC will be the work of all our members and we need the contribution of each and everyone to prepare the action plan. The Bureau is scheduled to meet in March. In order to make concrete proposals at the next General Meeting, I propose to those who have not sent us their comments to take advantage of the month of February to let me have your observations and suggestions. I thank you in advance.

Furthermore, do not hesitate to communicate any information, events, and exhibitions related to your country to the Secretary General to post them on the FISAIC website.

february 2019

Let's act together!
