

MONTHLY NOTE FROM THE PRESIDENT

PHILIPPE ROUCHE

erratum

president.fisaic@orange.fr

Dear Members and Friends,

We have completed the first quarter of 2019 which was another landmark for the FISAIC. The most auspicious event of the year was setting the goal to move forwards at the Executive Committee which took place in Paris on 2nd of March.

The agenda was dense and the five members in attendance (the General President the Deputy General President, the General Secretary, the Treasurer, and the Coordinator of the Technical Commissions), held very lively and enriching discussions with a particular focus on the coming Presidium in September 2019. Here are some of the issues raised at the meeting:

Working group missions

- Working Group "Communication": we are grateful to all the members who have actively contributed to the task, while regretting the lack of participation of quite a few member countries.
- Working Group "English as a unique language": task not completely finalized, still ongoing.
- BSW project still ongoing

Country Members

- Croatia (Wels)
- Estonia (Desaffiliation)
- Spain (**Model Railway event**)
- Russia (pending)
- Tunisia (on going)

Presidium (Stargard 09/2019)

- Be aware the Presidium provides the opportunity to convene an Extraordinary General Meeting (**change of the statutes**)
- Vice-Presidents (**new and more efficient role**)
- Disciplines
- Philately (**way of relaunching the activity**)
- Model Railway (**search for an Italian member thanks to UAICF**)
- Music and Choir (**the two activities separate again, no president for the music technical commission, no technical commission**)
- HAM Radio (**contact with GB**)

Miscellaneous

- Partnership (**USIC, UIC, search for outside partners**)
- Projects
- 70th Jubilee of the FISAIC 2022

We are gratefully looking forward to receiving your articles or short news to provide input for the Internet.
